

Network License Transfer Procedure

On the computer acting as your network license server, open the Wavefunction License Server Control program:

Please note, we recommend that you download and install the latest License Server Control Available, you can check your version number against the very latest available from the link: <https://www.wavefun.com/downloads>

Your current licensing will be recognized and you will be presented with a summary of this. . . Click on the **Transfer** button:

The screenshot shows the 'License Server Control - Existing Network License(s)' window. It displays a table of licenses with columns for Product, Seats, and License Terms. The 'Transfer' button is highlighted with a red box.

Product	Seats	License Terms
Spartan '20 - Parallel Unlimited	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59
Spartan'24 - Parallel Unlimited	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59
ChemShift v1	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59
Spartan Student v9	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59
Odyssey Instructor v7	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59
Odyssey Student v7	5	License expires in 2081 days Expires: Wed Mar 06, 2030 15:59

Buttons: < Back, **Transfer**, Update, Done

This will present the **Transfer License Request** panel. Individual steps are spelled out in the panel, and the process is initiated by clicking on the **Generate Transfer Request** button. Follow the prompts, and email the request file via codes@wavefun.com (typical response time is less than 24 hours).

Wavefunction License Server v3.7.5

License Server Control - Transfer License Request

Step 1: Click the 'Generate Transfer Request' button to generate a license transfer request file.

Generate Transfer Request

Request File:

Step 2: Attach the transfer request file to an email message and send it to...
codes@wavefun.com
A message will be returned with a license file attached.

Step 3: Save the email attachment to your computer and then click the 'Browse...' button to locate the file.

Browse...

Step 4: Click the 'Apply' button below.

< Back **Apply**

In the case of **Network licensing**, the standard procedure is to provide an update programmed identically to the original key (but enabled for a 30-day window). In this way the old license server can act as a temporary / back-up server until the new license server is activated. Upon receipt of your Confirmation Request file, Wavefunction will send a new license key for your new server.

Contact support@wavefun.com with any issues or questions.
